

European Innovation Partnership
on Active and Healthy Ageing

**2nd Conference
of Partners**

European Innovation Partnership on Active and Healthy Ageing
2nd Conference of Partners
Scaling up for Healthy Growth

25 November 2013, Brussels

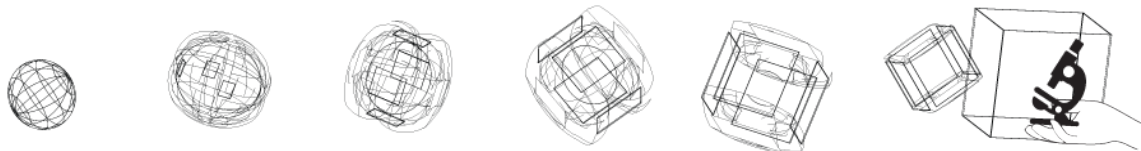

This conference, the annual event of the European Innovation Partnership on Active and Healthy Ageing, aimed to foster a high level policy debate about how to best scale up innovation within the care systems in response to the demographic challenge and how to create the associated opportunities for new growth and jobs.

A major input to this debate was the **evidence** (📎 7.9 MB) collected from the Reference Sites and the first **outcomes** (📎 731 KB) of six large scale

actions launched under this Partnership in November last year.

500+ participants took part, they included national and regional authorities, health and social care professionals, industry, insurers and NGOs.

Please consult the **programme** page for video extracts and powerpoint presentations, when available. You can also access the whole **film** of the conference.
