

# RESPONSIBLE PHARMA 2017

KONFERENCE OG TEMADAG I KØBENHAVN  
- 30. NOVEMBER 2017

En bæredygtig sundhed er altafgørende for livskvalitet og samfundsøkonomi.

Af samme grund er pharmaindustriens ageren og udvikling helt central for, hvordan vores samfund får skabt bro mellem lige adgang til lange, sunde liv og en økonomisk stabil sundhedssektor.

På Responsible Pharma sætter vi dermed gennem cases, workshop og diskussion fokus på konkrete tiltag til bæredygtighed og ansvarlighed, men også med enorme perspektiver til verdens fremtid. Vær med til at lytte og debattere - og giv input til FNs viden og tanker om udviklingen for Verdensmålene d. 30. november 2017.
